

ask about our "filtersaver" prewraps with tactifier

Is this filter new or cleaned?

We will never tell, and chances are you won't be able to tell either.

Did you know your blower filters can be cleaned saving you 40-60% ?

That's right for 40-60% savings off the price of purchasing a new filter your filter can be cleaned and reconditioned.

A polyester filter can be cleaned 3-4 times.

Do the math:

New Solberg 375P \$131.25 x four times = \$525.00

Cleaning of your filter \$67.50 x four times = \$262.00

*Cleaning saves **50%***
